## Iron Ore Project Camp Detailed Design for Camp Supply and Delivery

### Client

Fortescue Metals Group

### Project Location

Approximately 100km north of Newman in the Pilbara Region, Western Australia.

### Project Summary

Engenium was engaged by Fortescue to undertake detailed engineering and design of camp infrastructure at one of their strategic iron ore projects.

The project elements included the installation of the transportable units verandas, footpaths, associated facilities and amenities at the following locations:

- Mine Operations Centre
- Construction Camp (250 persons)
- Fly Camp (92 persons)

Engenium was appointed to work with Fortescue and its consultants to deliver a Detailed Design. Engenium's scope of work included building facility and road arrangement, in ground services design, detailed earthworks and drainage design.
