Pardoo Retention Ponds

Project Management and EPCM Consultant

Client

Atlas Iron

Project Location

75km East of Port Hedland, Western Australia

Project Capital Value

≈ AU\$2 Million (combined for two ponds)

Project Summary

Engenium was engaged by Atlas Iron to deliver two water retention ponds at their Pardoo mine.

The retention ponds are used to store water from pit dewatering with off takes to enable water to be used for dust suppression.

The Scope included the Project Management, Engineering, Procurement, Contract Administration and Construction Management.
