Mount Woods Iron Ore Project Snaefell Concept Study Report

Client

IMX Resources Ltd.

Project Location

The deposit is located 12 km south-west of the Cairn Hill mine and only 3 km east of the sealed Stuart Highway.

Project Capital Value

\$0.8 - \$1.5 Billion, depending on project option.

Project Summary

Engenium was asked to provide a concept study report encompassing design, engineering and procurement to assist in preliminary project evaluation.

IMX identified a scope for two production options of 4.7 Mtpa and 9.4 Mtpa. Engenium developed an operating cost estimate, as well as a +50%/-15% capital cost estimate which included:

- Conceptual process flowsheet.
- Mechanical equipment list.
- Relevant buildings such as workshops, administration and laboratory.
- Power supply, including investigation of a number of options.
- Conceptual borefield.
- Tailings storage facility, including return water equipment.
- Camp.
