Yandicoogina Pipelines & Pit Dewatering Engineering, Procurement & Construction Management

Client

Rio Tinto Iron Ore / Pilbara Iron

Project Location

Yandicoogina, Eastern Pilbara, Western Australia

Project Value

<AU\$5 Million

Project Summary

Engenium was engaged as EPCM Project Managers for Rio Tinto's Yandicoogina mine site to deliver dewatering projects located in various live pits, such as the Hairpin Pit, Phil's Creek Pit and the re-location of a discharge pipeline and civil modifications to Turkey's Nest.

This project delivered three new dewatering pipelines. One new pipeline at Hairpin Pit, a second larger pipeline to complement the existing smaller pipeline at Phil's Creek Pit and a new pipeline from Turkey's Nest to a new discharge outlet at Marillana Creek.

Engenium completed this project on time and on budget with a perfect safety record of 0 LTI's, including providing assistance to the mine with pit dewatering operations during a critical production period.
